23rd February 1996

Dear Hilary,

Thank you very much for your letter of the 8th February and how very nice to hear from you.

I left Wilhelmshaven in 1947, just before the school was set up. However, I was located in the buildings now used for school purposes. The School concept was being spoken of at the time of my activities there, but the first steps were taken shortly after I left. My duties in Wilhelmshaven were associated with the packing up of the dockyard and the counter intelligence activities concerned with the team of ten Russians, who were also comrades, in what is now the school buildings.

I am so sorry not to be of more help, although I must confess my primary memory of Wilhelmshaven still remains as one of the coldest places in the world, including the Antarctic, of which I have some experience!

Yours sincerely,

John Harvey-Jones
